

FineFuture

NOVEMBER 2022 #25

FINEFUTURE FINAL CONFERENCE

Funded under H2020-EU

Overall budget: € 6 195 022,50

EU contribution: € 6 195 022,50

Grant agreement ID 821265

Start date: 1 June 2019

End date: 31 May 2022

On the second day of Raw Materials Week, the FineFuture Consortium organised its final event in Brussels. During the gathering, the participants showcased the highlights of 4 years of hard work and experimentation.

A special thanks to [Maria Spyrali](#), Member of the European Parliament, for her motivating opening speech, to [Kerstin Eckert](#) and [Stefan Dirlich](#) for their work and moderation, and all the speakers live and online.

The final closing event was organised based on four main pillars:

- Advanced in Flotation reagents
- Improved flotation technology
- Overview of multiple pilot case studies tested on manganese / iron ore / copper ore
- Critical assessment of these innovative approaches.

Around 80 attendees contributed to the insightful discussions and assessed the feasibility of building a follow-up consortium. In the closing statement, the project coordinator Kertin Eckhet highlighted that the project is not a goodbye but an invitation to build new advances on these FineFuture findings and support the EU industry.
